GOOGLING

Event Managers

- Aashish Dhakal
- Aashish KC
- Amrit Acharya

OBJECTIVE

- To test googling skills of participants.
- To involve non-IT students at the event.

How did we get our participants?

- On-field promotion of IT Meet v8.0 in various colleges and schools.
- Promotion via Facebook.
- By On-spot registration of participants on the event day.

Sponsor Company

iTTi Pvt. Ltd.

What went right?

- Number of participants were more than expected.
- Program was conducted smoothly with good feedback from participants

What went wrong?

- Did not get some materials in time as per required from logistics team.
- Event was delayed by few hours due to problem on googling script.

Was sponsor Company satisfied?

Yes

Any suggestions?

- Googling script should be checked and tested at least once before the event.
- Logistics team should have managed all the materials in time.
